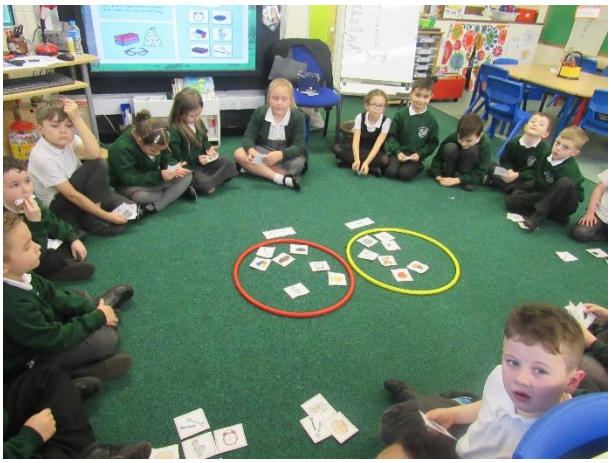
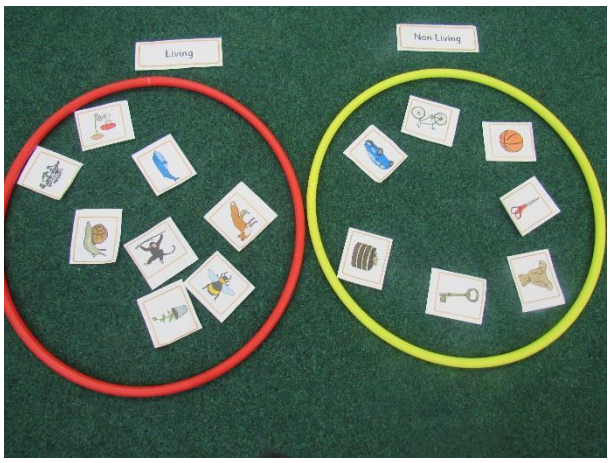
Year 2 - Spring Term

We cannot believe that it's already spring term in year 2 and what a busy term it is! We have lots of wonderful learning opportunities ahead of us and can't wait to explore, discover and investigate.





Here we are (above) investigating whether something is living, non-living or dead in our science lesson.

In Maths we have done a lot of work on multiplication and division, including a lot of sharing activities (some included food – yummy!)
