Daryl, a local vet, visited Year 3 to talk about various farm animals. Did you know that a pig is pregnant for 3 months, 3 weeks and 3 days? We were lucky enough to try out some stethoscopes and wore very long gloves, just like a real vet!

We enjoyed a visit from three wonderful ladies, who are dog behaviourists, and they even brought their furry friends in to see us too! They taught us how to do a simple trick, using treats to encourage a dog to walk through a hula hoop. The children thoroughly enjoyed the visit.

Karen, a retired Mental Health Nurse also came to talk to us during Aspirations Week. She explained that she worked with people, giving them strategies to manage their own mental health.

She talked about life during her time in the war zone in Afghanistan and when she helped save a man's eye and helped deliver a baby!

Gemma also shared her experience when she was up in a chinook and being shot at!
Gemma truly enjoys life in the forces and is a true hero for our country!

Dave was once a chemical engineer, who turned raw materials into everyday products. During this time, he had a calling from God, so he is now a church worker, who spreads the word of God.
