

Year 4

Our first visitor for Aspirations Week was one of our children's parents who had their own company called Hey Projects, who fit out Nandos restaurants. The whole class were super excited and very interested to hear all about every aspect of Nandos and what goes on behind the scenes. They could not believe how many different careers paths were involved in the function of the company. It came to light that although that the success of the company relies on skilled tradesman, that they are in very short supply in our country. The children really enjoyed the talk.

Daryl, a local vet, visited Year and 4 to talk about various farm animals. Did you know that a pig is pregnant for 3 months, 3 weeks and 3 days? We were lucky enough to try out some stethoscopes and wore very long gloves, just like a real vet!

Dave Hart came into speak to the children in KS2 about his previous career as a Chemical Engineer. He spoke about how important his role was and the qualifications needed. His role was to utilize raw materials into useable products. He then spoke about his change of career as he said he had a calling from God to share his love.
