

# Geography

Year 6 have been communicating geographically. Building on their previous skills, they have used four and six figure grid references to locate and record the locations of different places. They have been able to combine their past learning to define the tropics in geographical terms including directions, horizons, latitude and longitude.

Year 1 are taking the early steps on their journey to becoming Geographers, learning about the different compass points and beginning to understand how they apply to a compass rose.

Communicate Geographically - Transport

CW

Transport	Advantages	Disadvantages
Bus	Everyone can use it > if you can't drive	you have to get in with other people you have to go somewhere else sometimes
Train	really quick no traffic goes far	with lots of money public transport
Taxi	travel on your own comes up any time wherever you want	traffic expensive
Private car	no waiting on your own ✓	pay for fuel oil petrol parking

Year 4 have used their geography knowledge to explore how transport can affect a person's experiences. The children were able to consider the positive impact as well as the disadvantages in both a local and global context discussing finances and air pollution!
