

Welcome to year 3! Things are a little different when you move into the juniors but it is nothing to be worried about and you will be ready for the change. We get to sit at bigger tables, on bigger chairs and even have a bigger playground (and climbing frame) to use. We have lunch a little later than in the infants but your afternoon does go quicker!

We work hard in our class, but boy do we have fun along the way. You are going to love the things we've got planned for you this year. To begin with, we journey all the way back to the Stone-Age and learn all about early man through our topic and English lessons. In science you will get the chance to dig for fossils and learn about our bodies and how to keep healthy. For those artists amongst you, you are going to be thrilled discovering Hundertwasser and copying his style.

As Christmas approaches, we will be very busy with preparations but will still find the time to make Christingles, attend a church service, put on a performance for our families, eat our Christmas lunch and enjoy a trip to the pantomime ("Oh yes we will!"). After such a busy term we are all ready for a break with our families.

The circus comes to town in the spring term and if you are very lucky, you may have a ringmaster, a magician or clown come to visit you to inspire your writing. Because we love reading, we venture to our local library and have the chance to become members there. In PE we enjoy Premier Sport lessons, along with a range of PE and dance lessons taught by your sporty teacher! In the second half of the spring term, we go swimming for the first time with school, so get practising your strokes down at your local swimming pool.

Finally, before we bid you farewell and send you on your journey to year 4, we will learn about The Battle of Hastings and how it affects our local history. We may even find time to fit in a trip to Norton Priory. The year finishes on a high with a sports day and a talent show.
