

Autumn is always a lovely time to be in school. Sometimes the weather is warm and we can have lots of outdoor learning. We read lots of books, Katie in London, finding out all about our capital city and the Queen. We meet a magical lion who travels around the city. The term is always busy towards the end with our fantastic Christmas celebrations and trips. The panto is always great and the children love to see the classroom decorated and find out what the naughty elf has got up to.

We have got a fantastic topic this first half term of Spring. We will be learning all about Toys, new toys and old toys. Learning about how they have changed. You will also get to see some of Mrs Moss' old toys! Our book is called Toys in Space and you will get to meet the Hootopize and to find out why he is crying.

As the weather warms up we will be out and about in the school grounds looking for animals and their homes. Let's hope Mrs Robertson doesn't find any spiders!

Then it is one of our favourite times of year at St Mary's-Easter! We will be eating some pancakes and thinking about Lent ready for all of these yummy Easter eggs and a holiday from school!

As the weather gets warmer we will be finding out all about the season of summer and exploring our local area. The children always love to visit the church and look at the castle. We will compare our area to an imaginary Scottish island, where Katie Morag lives. This is one of Mrs Moss' favourite topics as she holidays in Scotland each year. We will also be growing and finding out all about different plants.

We will be looking at our church and visiting an incredible synagogue in Liverpool, with an added bonus of The World Museum and Sefton Park. If the children are really lucky there might be an ice cream too!
