## Year 2 Joan Miro

**Magical Realism**

Joan Miró was a Spanish Catalan artist, born in Barcelona in 1893.

From 1920, Miró painted in a Magical Realist style. He painted carefully, and made things look quite realistic. Some parts of these paintings seem slightly strange or unusual.

These paintings feel almost real, but as if something is not quite right. This creates a feeling that the paintings are magical, or like a dream.

### Activity 1:

Research Joan Miro and write a diary entry as if you are him for the day. What did you paint and why? How did you make your painting magical or feel like a dream?

### Activity 2:

Draw or paint a picture in the style of Joan Miro. Photograph it and place in on St. Mary's Twitter.
