

Our vision is to *inspire* and grow a compassionate community of excellence.

A happy place for our children to shine for God, for each other, and for themselves.

Welcome to Year 1 and 2! You are going to love the things we've got planned for you this year. We kick off the Autumn term with our Science topic about Humans. You will learn about staying healthy and how we change as we grow. We will then go on to learn about Florence Nightingale. We will think about nurses in the past and how nursing has changed through the years. We will use our English skills to make a comparison between the roles. The lead up to Christmas will be very exciting and a visit to the pantomime 'tops off' this term brilliantly.

The Spring term topic will be all about China. We will locate China on a map of the world and we will learn all about the Chinese New Year story and celebrations. We will increase our depth of understanding by using our enquiry skills for research. Our Science topic will be Living Things and their habitats. We will think about lots of different animals and where they live. In the lead up to Easter we will be flipping pancakes and searching for Easter eggs!

For your last ever term in Key Stage One or Year 1, we aim to make as many great memories as we can. Year 2's will have an exciting residential visit to Beeston and we will all go on a visit to New Brighton to explore the seaside and collect some artefacts to bring back to school. We will think about the seaside in the past and how it has changed. We will use the skills that we have learnt in Maths to measure the things that we will collect and to help us calculate different ways of paying in the souvenir shop. We will even have time to buy a stick of rock!
