

Year 3 Remote Learning

During Lockdown, Year 3 spent time learning about the different parts of a river and how they are formed. For DT they designed and then made their very own river model using materials from around their house. They were very creative with their structures! For PE, the children completed yoga activities bending and stretching. They even encouraged their family members to join in! The children have also learnt about how to keep safe through first aid training and road safety. The children enjoyed finding how to keep people safe following a sting or bite. The children have also been learning about The Bronze Age and a famous monument that was built then, called Stonehenge.

Year 3 Remote Learning
