

# Maths

*Reception children found lots of different ways to make the quantity six!*

*Year 1 learned about weights, heights, and lengths using rulers, metre sticks and the weighing scales.*

*Year 4 reviewed their knowledge of fractions including the vocabulary numerator, denominator, unit fraction and non-unit fractions*

*The children in Year 5 proved learning is fun as they consolidated their learning of decimals when playing an adding decimals game.*

*Year 6 were introduced to Algebra and investigated finding the value of a letter to solve an equation.*
