

# P.E.

*As part of our PE curriculum this term we have been developing multi-skills; from moving with control and confidence in Reception to improving collaboration skills in Year 6.*

*Reception had lots of fun taking part in Bikeability. The children developed control skills and confidence building whilst also listening and following instructions.*

*Year 2 worked on ball control, including throwing, batting and progressing their teamwork skills.*

*Year 3 expanded their co-ordination, agility, and movement skills.*

*Year 5 improved their communication when working collaboratively during relay races. They also practised competing respectfully and fairly, following the rules.*

*Year 6 enjoyed their Bikeability session. They advanced their control skills and confidence while riding on the highway.*
