

Year 1 Remote Learning During Lockdown

January 5th to March 8th 2021

Year 1 had a busy time in our remote learning sessions during lockdown and we covered many subjects and even though we could not be in school we still did lots of learning and had fun on the way. The children planned and made food for their families, thinking about the skills of chopping, grating, mixing and measuring and it was amazing what they achieved! We had cakes, curries, pizzas, and a birthday cake too. We also kept fit and healthy, exercising to Joe Wicks, going on walks in the local area and scootering too. We made information posters based on ocean animals and named and labelled our body parts. In maths we learnt about capacity, weight and height and in R.E we learnt about Palm Sunday through doing artwork. Finally, we made bird feeders and also had great fun guessing who the masked readers were. Who was that frog? Were they a teacher or a child? Mrs Robertson and I were so impressed and amazed at all the hard work the children put into their home learning and also the parents were amazing too supporting their children whilst at home. Here are some pictures to look at to see the amazing work that has been going on in Year 1. Well done everyone.
