

Year 6 Remote Learning 2021

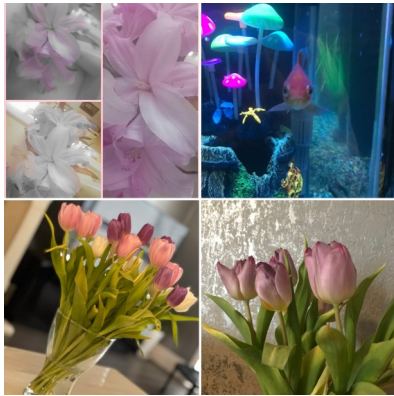

Year 6 made some beautiful Parabolic curves as part of their maths day activities. We also enjoyed making bird feeders with Mrs. Curtis and Mrs. Humphreys as part of a whole school Friday Family learning afternoon.

As part of our learning on South America, the children had a go at creating their own Brazilian menus and even got into the kitchen and made some of the dishes!!

Year 6 Remote Learning 2021

Children showed off their photography skills in an online DT lesson. They learned how to adjust light, colour and angles to create some fantastic photographs. Paper weaving was another favourite Design Technology lesson.

In History children researched famous explorers and created their own way of presenting bio profiles using power point, word and some even showed us how they could work collaboratively across TEAMS to present their research together by video link.

points, fact files and information booklets. Some children even linked up and delivered online presentations..
