

Geography Home Learning Year Five

Can you name some of the equatorial countries (countries that lie on the equator)? How many are there?

How about their capital cities?

Choose one of the countries. Complete a fact file all about it e.g. flag, places to visit, rivers, climate

I would love to see how you get on.

Tweet any work to @stmaryshalton or email elizabeth.lamb@st-marys.halton.sch.uk or your class teacher.

Good luck! From Mrs Lamb (Geography Coordinator)
