

Geography

Scotland has many lakes or lochs. The largest lake is Loch Lomond.

In Year 1 we have begun to explore the countries that make up the United Kingdom. Using our geographical language, we have described some features of the different countries

The national symbol of Wales is the daffodil.

Mount Snowdon is the highest point at 1085m.

The capital city of Scotland is Edinburgh.

In Year 2 we have been learning about the oceans and continents of the world.

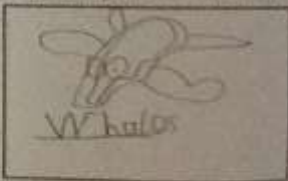

We have used atlases to locate different places and created a fact file about the Arctic Ocean.

16/1/23
The Arctic Ocean *Amazing & wild don't!*

Ocean Statistics *W.S.*
 Maximum depth: 5,450m
 Location of deepest point: Molloy Hole
 Area it covers: 14.06 million km²
 Warmest temperature: 12°C
 Coldest temperature: -1.8C

Sea Life
 What animals and organisms are you likely to find in the Arctic Ocean?
 • whales
 • seals
 • polar bears
 • sahibids
 • detritus

Draw the most interesting sea creature or organism you have learned about:

Whales

Coastline
 Where is the Arctic Ocean? on the NP North Pole

Major Causes of Pollution *W.S.*
 Three countries that have coasts on this ocean are:
 • Canada
 • Finland
 • Greenland
 • Oil Rigs
 • 98% rubbish
 • Plastic
