

Music

The following has been created to support the Music Curriculum at St. Mary's. There is no pressure to complete these tasks but with spending a lot of time in the house over the coming weeks, music will have a positive impact on mental health, is fun and creative and uses many skills from other areas of the curriculum, including maths, English, history and geography.

The recommended activities have been listed to allow children to develop their understanding by learning about music, musical instruments and composers.

Recommended websites / videos

<https://www.kididdles.com/> Lovely for younger children. Free to sign up, then lots of nursery rhymes and simple songs to sing and activity sheets to download.

<https://www.classicsforkids.com/> The activity sheets given are from this site, though there is so much more there to experience! It is great to listen to music and learn about composers from here.

<https://www.youtube.com/watch?v=8XXmBITadys> Myleene Klass has devised some new music lessons to help children learn about music. This is the first one, and others will be available on her channel. Ideal for our year 3 – 6 children.

https://home-ed.info/heresources/music_resources Other sites are recommended here, some of which are ideal if your child would like to develop learning a musical instrument while at home.
